

Project Status Report I

Date of Report Issue/Prepared: _____

Report Prepared By: Zac Shaw _____

Employer/Organization: _____

Project Name:	Project Gradvisor	
Project Team:	T25	
Period Reporting:	Start Date: Jan 11, 2021	End Date: Jan 29, 2021
Overall Project Health	Green (Good)	

Description

Project Description

Project Gradvisory (short for Graduation Advisor) is a website capable of advising students, new and old on their career paths. Or even opening further paths that they may have not considered before. We hope that through our website people will be able to compare universities, colleges, programs within and outside of the institutes as the user pleases to allow them to properly choose how they wish to shape their future.

Project Features:

1. Displays a list of all Universities and Colleges in Ontario.
2. Allows to filter results based on various criteria such as program or programs of choice, co-ops, ratings, city, etc...
3. Advisory system that allows you to compare courses and colleges based on your own customized criteria
4. Allows current students and Alumni to review the college you're eyeing so you can make a much more informed decision.
5. Shows you a list of possible jobs after graduating from the program.
6. Sign up and Login so you can keep track of your choices, add in your grades so it can recommend the most likely colleges and universities that are suitable for you.
7. Allows Colleges and Universities themselves to edit their listings for it to be first approved by the application before the changes are made. (College edits the grade requirement - Admin 1 approves the change - it shows up on app)

8. Shows you what campus life is like, with pictures and dorm choices which all include what the fees for each one would be. Including nearby food options

Summary

Project Status Summary

We've come back from the holiday break, and have gotten back to work on our project. Yazan has created a timeline for us to follow. We are currently in the process of assembling web pages together based off of our template designs as well as deciding the database we are going to be using. Some basic pages have been added to the website.

Accomplishments As Planned	Planned but not Accomplished
Created Timeline/ Milestones	Pick a Database
Acquired Domain Name for website	Create a basic html layout
Added basic templates	Create a Search bar
Added login/ registration	

Upcoming Objectives for Jan 30, 2021 to Feb 12, 2021

	Planned Activities/Tasks for Next Period		
Activity/Task	Assigned To <name/s>	Duration <days>	Date
Create Login and Registration Page	Zac & Yazan	12	Feb 12
Setup Database	Joshua and Fatih	12	Feb 12

	Milestones for Next Period	
Milestone (Objective)	Assigned To	Delivery Date
Basic Search bar	All Members	12 th of Feb
Templates for College/University Pages	All Members	12 th of Feb
Admin Page	All Members	12 th of Feb

Managing Issues and Risk

Issues/Problems	Resolution Strategy	Due Date
Web Host doesn't support Python	Switched hosting to Heroku	Jan 29th
MongoDB isn't supported by Django	Changing DB Solution to a supported SQL framework	Jan 31st

Upcoming Risks	Risk Ranking (Hi, Med, Low)	Risk Impact (Hi, Med, Low)	Mitigation Strategy
Making sure we have some sort of sorting algorithm	low	high	Team members are currently taking a machine learning course

NOTE: Attach additional sheets if insufficient space available

Submission Guidelines:

Please submit as "T<team number>_ProjectStatusReport1".
For e.g. T36_ProjectStatusReport1

This is a group submission i.e. one per group.

Due Dates:

Sunday, Jan 31, 2021 (11:59 p.m.)
